

Congratulations, you cracked the code

Now, let's change the world

Great to see you here! That means you managed to solve our small upfront task and you may be the addition to our team that we are looking for. This is definitely not the only code for which we will need your skills in the future. This is just the start.

Keyless locking solutions, mobile opening and remote access control systems are just the beginning. The world is changing faster than ever, and the development of digital technologies is shaping the security and locking industry at an ever-accelerating pace.

Not only do we want to be involved in this transformation, we want to show the direction. Here, the development of various software products is at the heart of it all. By coming to work for us, you will be able to influence not only the future of Abloy, but the future of the entire world in the way we experience and secure it. So what do you say, should we roll up our sleeves and get to work? View our vacancies and join the team.

International career in an industry-leading team

Internationality is present in Abloy's everyday life – as customers, products, colleagues and practices. ABLOY is part of a global ASSA ABLOY Group, so you can advance your career as far as you want. We constantly invest in the professional skills of our employees by providing training that supports your goals and our own strengths. Our strong community welcomes new members – you can come as you are.

Modern locking and access control solutions

ABLOY is a leader in security and locking, whose modern solutions combine industry-leading digital and mechanical expertise. With us, you don't have to jump from one project to another, but get to focus on long-term inhouse product development.

Ensured trust for the most important areas of society

Locking, access control and security solutions play an important role in the functioning of society as a whole – they must operate seamlessly in all conditions, every day of the year. When you work with us, you leave your mark in a visible and truly meaningful way: ABLOY secures the entire critical infrastructure sector from banks, power plants and hospitals to major international sites like the Eiffel Tower in Paris and the Hermitage Museum in Saint Petersburg.
